Employment

LOGISTICS SYSTEMS PROCESS SPECIALIST | FCA LLC US – JEEP – TOLEDO ASSEMBLY COMPLEX | 3/5/17 – CURRENT

- Heavily contributed to the 2017-2018 Jeep Wrangler Launch.
- Developed internal/external electronic FCA material flow systems. Managed mainframe implementations in COBOL.
- Aided in integration of multiple mainframe customer information control systems.
- Assisted development of plant logistics database in Microsoft Access (VBA).
- Refined internal delivery routing through naming convention, color coordination and plant-wide signage.
- Aided FCA suppliers in achieving optimal material flow to Assembly Plant by integrating their supplier planning system with FCA's internal flow system.
- Worked hand-in-hand with engineering to unify manufacturing processes into more efficient delivery patterns.
- Trained several, new salary personnel in both operations and flow systems.
- Presented Low Cost Automation incentives and Minimal Material Handling solutions in the 2017 WCM (World Class Manufacturing) Gold Audit.

MATERIAL AREA SUPERVISOR | FCA LLC US – JEEP – TOLEDO ASSEMBLY COMPLEX | 2/9/15 – 3/5/17

- Ensure the optimal acquisition, inventory and delivery of all material necessary for Production Line continuance.
- Manage 80+ Direct (Production - Assembly) and Indirect (Stock – Delivery/Replenishment) Full Time and Temporary Part Time Employees in a unionized (UAW) environment.
- Oversee and allocate employee pay for both normal manufacturing operations as well as overtime equalization.
- Initiate, carry out and promote Kaizen-based improvement projects through the utilization of WCM (World Class Manufacturing) components such as 5T, 5S, 3G, Focused Improvement, Root Cause Analysis and Countermeasure implementation; Personally responsible for savings of over $700,000.00 in both Process and Safety Kaizen improvement projects.
- Hone and demonstrate ability to multi-task and execute split-second decision making in a high-pressure environment
- Highly functional in FCA ERP/MRP Information Systems.
- Acting mentor of as many as 15 new supervision personnel. Instruction ranged from procedural enlightenment and reinforcement to practical application.
- TAC Metering Center Safety Lead.
- Assisted in KL (Jeep Cherokee – Model Year 2017) all-time build-out.
- Assisted in KL (Jeep Cherokee – Model Year 2017, 2018 and 2019) Launch at Belvidere Assembly Plant.
- Member of JL (Jeep Wrangler – Model Year 2019) launch team.
- Highly versed in all relevant components of Microsoft Office (Outlook, Word, Excel, PowerPoint and Access).
